FAA# 11BR965Y

**BAR**

**Broadwing Air Repair** is a Domestic 145 Repair Station (FAA# 11BR965Y) based in Melbourne, Arkansas. **BAR** focuses on flight control surface and various door repair and overhaul solutions to the commercial, regional and military aviation markets.

**BAR** is led by former Boeing Warranty Repair Station management and employs qualified and experienced mechanics and engineers, many of whom have experience working for Boeing Warranty Repair.

**BAR's** broad repair capabilities are further enhanced through its strategic partnerships with aftermarket parts suppliers, which affords **BAR** access to new and overhauled components on an as-needed basis for exchanges or for quick-turn AOG situations.

Experience, High Quality Repair Solutions, Access to Inventory and the Latest Equipment all enable **Broadwing Air Repair** to *raise the **BAR** in aviation!*
